Workflow

Daily rhythm, weekly review, and continuous pipelines

● EVERY DAY

Morning Plan

[/morning-plan](#)

8:00 AM

READS FROM

- Google Calendar
- Todoist tasks
- Gmail
- Slack mentions
- iMessage
- Notion KB

CREATES

- Time-blocked daily plan
- Meeting notes in Obsidian

Evening Reflect

[/reflect](#)

6:00 PM

REVIEWS

- Morning plan vs actual
- Completed & incomplete tasks
- Otter.ai transcripts

CREATES

- Reflection in daily note
- Rescheduled tasks
- People profile updates

● EVERY WEEK

Weekly Review

[/weekly-review](#)

5

Daily reflections analyzed

87

Tags across 18 topics

4

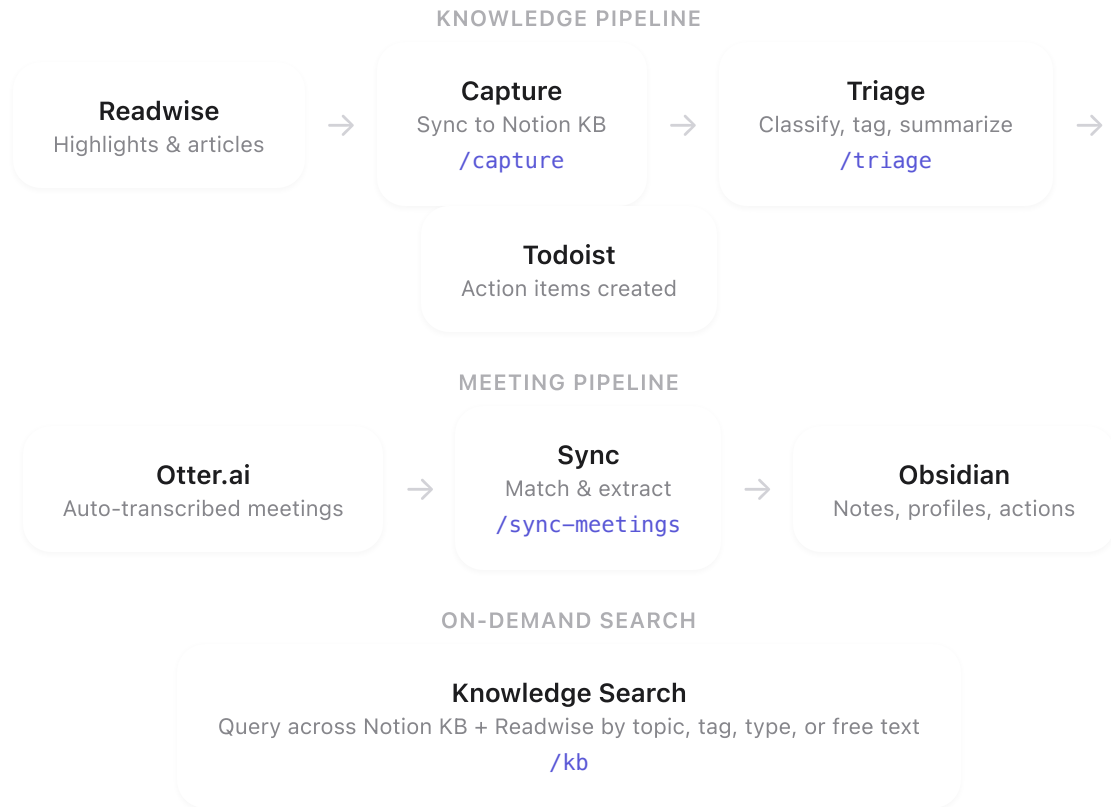

Todoist projects reviewed

1

Weekly note in Obsidian

ANALYZES COMPLETION, TIME ALLOCATION, KB CAPTURES, AND READWISE GAPS — THEN SETS NEXT WEEK'S PRIORITIES

● ALWAYS RUNNING

iOS Shortcuts

● DAILY OPERATIONS

Morning Planning

Pull calendar, tasks, email, Slack, and iMessage into a time-blocked daily plan. Auto-create meeting notes.

[/morning-plan](#)

6 sources

Evening Reflection

Compare plan vs reality. Reschedule incomplete tasks. Sync Otter transcripts. Log reflection to Obsidian.

[/reflect](#)

auto-reschedule

Weekly Review

Analyze the week's completion rates, time allocation, KB captures, and Readwise gaps. Set next week's priorities.

[/weekly-review](#)

gap analysis

● KNOWLEDGE MANAGEMENT

KB Triage & Tagging

Process Notion inbox. Auto-detect type, assign topics from 18 categories, tag with 87-tag taxonomy, summarize.

[/triage](#)

87 tags

Readwise Capture

Pull archived and shortlisted Readwise articles into Notion KB with highlights. One-way sync with dedup.

[/capture](#)

Readwise → Notion

Knowledge Search

Search across Notion KB and Readwise by topic, tag, type, status, free text, or date range.

[/kb](#)

cross-service

● MEETING INTELLIGENCE

Transcript Sync

Match Otter.ai transcripts to calendar events. Extract summaries, action items, and key decisions.

[/sync-meetings](#)

Otter → Obsidian

People Profiles

Auto-create and update contact profiles with meeting history, topics discussed, and relationship context.

auto-generated

Meeting Notes

Pre-populated notes from calendar events with attendees, context lookup, and linked transcripts.

template-driven

● TASK & TIME

4-Project Structure

Inbox, Personal, Work, and Us (shared). Clear ownership for every task.

Todoist

19 Smart Labels

Granular labels across Personal (7), Work (7), and Shared (5) for precise filtering.

auto-assigned

Priority Planning

P1 (must do today) through P4 (someday). Morning plan triages and surfaces by priority.

4 levels

● SECOND BRAIN & MOBILE

Daily Notes

Structured daily notes with plan, completed tasks, incomplete items, and evening reflection.

Obsidian

Quick Task

iOS Share Sheet shortcut. Capture action items from any app directly to Todoist Inbox.

iOS Shortcut

Todoist API

Save to KB

iOS Share Sheet shortcut. Save articles and links to Notion Knowledge Base as Inbox items.

iOS Shortcut

Notion API
